Dear Inizio Evoke hiring team,

I am applying for the Senior Account Director role with Inizio Evoke. During my second and most recent stint at FCB Health, I was one of two consumer account leads on the agency's largest pharmaceutical business. I managed the \$20M Namenda XR direct-to-consumer launch and led the broadcast workstream for three national television commercials in one year. The work covered market research, med-legal review, FDA preclearance, production, talent and location coordination, and network clearances. The spots drove a 45% increase in new-to-brand consumers within seven weeks. Earlier at FCB Health, I supported the \$10M NUVIGIL consumer business, owning weekly client status and financial reporting, OPDP submissions, multichannel campaign delivery, and annual strategic recommendations.

After FCB Health, I joined Scout Marketing as an Account Supervisor / Digital Strategist and led Jazz Pharmaceuticals' XYREM consumer work. I guided unbranded campaigns across digital, print, and in-office channels, including Jazz's first unbranded social campaign and a digital program that doubled qualified traffic to the brand site. Earlier in my account career at RosettaWishbone, I was the primary client contact across brand teams, national affiliates, and vendors. I also handled briefs, scopes of work, key opinion leader communication, client status, and financial reporting for an Africa and Middle East advisory board in Dubai.

Since my last titled account role, I have stayed close to clients while adding experience in team leadership, analytics, and regulated workflow design. At Kinesso, I grew a distributed design team from 2 to 30 and led work for enterprise analytics used by 7,000+ people across 22 brands. Today, I build tools for pharmaceutical agencies that support claim review, brief intake, scoping, review routing, and MLR preparation. I am coming back to account leadership with a clearer view of how teams work and where delivery breaks down. I am also better at turning data into recommendations clients can use.

The role makes sense for where I am now: it brings me back to healthcare account leadership with more experience building teams and improving delivery. I would welcome the chance to discuss how that background could support Inizio Evoke's clients and teams.

Sincerely,

Wally Mostafa
