SUMMARY

AI implementation lead with 15 years across healthcare agency work, pharma account strategy, enterprise UX, and regulated AI workflow delivery. I turn ambiguous agency workflows into governed AI tools, demo-ready POCs, and adoption-ready product systems. My strength is bridging client translation, workflow design, model behavior, and human review so teams can trust and use AI after the demo.

Product Strategy & POC Delivery — Discovery, scoping, requirements, prototype validation, demo narratives, build-ready logic, production handoff, and stakeholder iteration

Healthcare UX & Cross-Functional Leadership — 11 years pharma/healthcare communications, HCP/patient experience, client workshops, design systems, account strategy, and stakeholder adoption
