SUMMARY

Program delivery and healthcare client strategy lead with 15 years across pharma, enterprise analytics, product UX, regulated campaign delivery, and AI workflow implementation. I connect Marketing, Product, Engineering, client stakeholders, and operational teams around clear requirements, launch readiness, governance, reporting, and continuous improvement. My strongest fit for CarePath is cross-functional execution: turning ambiguous partner needs into structured plans, measurable workflows, and usable systems teams can run after launch.

CAPABILITIES

Program Delivery & Launch Readiness — Milestone planning, requirements translation, blocker removal, QA checkpoints, stakeholder reviews, and go-live coordination across product and client teams

Campaign Operations & Governance — Healthcare campaign execution, MLR-ready deliverables, operational standards, review routing, documentation, and repeatable launch processes

Analytics, Reporting & Decision Support — Enterprise dashboards, channel scoring, benchmarks, recommendations, evidence trails, performance narratives, and leadership-ready reporting

Healthcare Client & Partner Leadership — 11 years across pharma/healthcare communications, patient/HCP UX, account leadership, executive-facing presentations, and cross-functional delivery
