SUMMARY

AI product strategist and design leader with 15 years across pharma, enterprise UX, and AI implementation. I work end to end, from framing the problem to designing the experience, directing the models, and staying with the build through launch. My strength is turning ambiguity into products people can actually use, building design teams and practices from the ground up, and making AI trustworthy enough for regulated work.

Regulated & Enterprise Delivery — FDA/HIPAA/MLR workflows, pharma agency operations, stakeholder alignment, client workshops, adoption

UX Leadership & Design Systems — Team scaling (2 → 30), enterprise UX, data visualization, component libraries, accessibility (WCAG)
