SUMMARY

Senior product and visual-systems designer with nearly eight years of hands-on UX and product-design experience and 15 years across digital delivery, client strategy, and regulated work. I turn visual identity into scalable product design systems, from typography, color, spacing, tokens, and component libraries through developer-facing documentation and engineering handoff. My strongest proof includes a 500-component system for a 20+ product suite, enterprise UX used by 7,000+ people across 22 white-label brands, and a current React and TypeScript-aligned brand system.

SKILLS

Brand & Visual Systems — Visual identity, typography, color, spacing, iconography, motion guidance, responsive UI, brand theming, and white-label product experiences

Product Design Systems — Figma, design tokens, component libraries, living documentation, interaction patterns, system governance, and Design Bot quality auditing

Engineering Handoff & Product UI — Developer-facing documentation, frontend collaboration, React, TypeScript, SCSS, responsive implementation, enterprise analytics, and AI products

Accessibility & Design Leadership — Accessibility, WCAG, keyboard interaction, research-informed standards, product and engineering partnership, executive communication, and team scaling

EXPERIENCE

AI Implementation Partner

Hedgehox · Remote · Mar 2024 – Present

- Designed the Xenagos Bio visual identity and investor-facing website, translating scientific positioning into a premium, credible product surface
- Created an in-repository design-system reference covering design tokens, typography, color, spacing, component behavior, motion guidance, and engineering handoff aligned with React, Vite, TypeScript, and SCSS
- Designed AI products for regulated pharma workflows, including claim review, brief intake, scoping, review routing, submission capture, and FDA signal monitoring
- Secured an investor for proprietary Claims Detection software by building the functional POC, shaping the demo story, and iterating with investors

Founder & AI Product Strategist

One Block Away LLC · Remote · Jul 2023 – Present

- Lead product strategy and UX from discovery through visual direction, responsive product UI, front-end build, backend logic, demo readiness, and client iteration
- Build client-led AI products that turn unclear business questions into testable product surfaces, reusable workflows, and implementation decisions
- Translate complex data, model behavior, and evidence trails into interfaces that technical and non-technical stakeholders can understand and use

Director, Experience & Innovation

Kinesso (IPG) · New York, NY · Feb 2020 – Jun 2023

- Led enterprise UX and product design systems used by 7,000+ users across 22 white-label brands, connecting visual identity, brand theming, data visualization, and reusable interface patterns
- Helped shape a living design system for a 20+ product suite with 500 components, 140 styles, 300 icons, shared navigation, personalization, and white-label behavior
- Partnered across product, design, development, and business teams to turn research and technical constraints into component libraries, living documentation, and build-ready system decisions
- Helped establish accessibility and WCAG direction, including inclusive standards and concrete keyboard interaction guidance
- Scaled product design from 2 to 30 people across the US and Poland while maintaining shared standards across products and teams
- Design-system and analytics work earned 5 Indigo Gold, 4 Indigo Silver, and Red Dot recognition for Brands and Communication Design

Freelance UX Designer

Omnicom · New York, NY · Dec 2019 – Jan 2020
