SUMMARY

Senior UX research and product-design leader with 7+ years across enterprise products, regulated healthcare, and AI workflows. I built a mixed-method research discipline across 20+ products using user interviews, Typeform surveys, Useberry usability testing, Heap behavior analytics, workshops, beta groups, and standardized reports. I combine qualitative and quantitative evidence with prototype validation, product-behavior signals, benchmarks, and human review to help teams evaluate products and improve direction.

SKILLS

Mixed-Methods UX Research — Qualitative and quantitative research, user interviews, surveys, usability studies, Useberry prototype testing, Typeform feedback, Heap analytics, synthesis, beta groups, and participant trust

Research Measurement & Validation — Typeform feedback, Useberry prototype testing, Heap product-behavior analytics, benchmark-driven audits, standardized reports, beta feedback, and continuous iteration

AI Product Behavior & Human Review — LLM/VLM workflows, prompt-defined criteria, claim detection, evidence gaps, reviewer attention, source health, risk signals, and human-review product surfaces

Research Influence & Expert Workflows — Cross-functional research, research roadshows, workshops, senior leadership communication, distributed teams, healthcare professionals, patient research, and regulated product direction

EXPERIENCE

AI Implementation Partner

Hedgehox · Remote · Mar 2024 – Present

- Translate regulated pharma workflow needs into AI product concepts spanning claim review, brief intake, scoping, routing, submission capture, and FDA signal monitoring
- Designed Claims Detector around prompt-defined criteria and human review, surfacing model-identified claims, evidence gaps, and content requiring reviewer attention before MLR submission
- Connect healthcare professionals, agency teams, regulatory constraints, and AI product behavior to clearer review surfaces and product direction
- Secured an investor for proprietary Claims Detection software by building the functional POC, shaping the demo story, and iterating with stakeholders

Founder & AI Product Strategist

One Block Away LLC · Remote · Jul 2023 – Present

- Lead client discovery and usability iteration that turn unclear business questions into testable product surfaces, product questions, and roadmap decisions
- Built WeReady's Bailey Intelligence dashboard around founder inputs, source health, risk signals, evidence trails, and recommendations so people can evaluate AI-supported conclusions
- Own product strategy, UX, AI workflow design, front-end and backend logic, prototype validation, demo readiness, and client iteration from first question through working product

Director, Experience & Innovation

Kinesso (IPG) · New York, NY · Feb 2020 – Jun 2023

- Built the UX research discipline from scratch across 20+ products and four product suites using user interviews, Typeform surveys, Useberry usability testing, Heap behavior analytics, workshops, beta groups, and standardized reporting
- Combined Typeform feedback, Useberry prototype testing, Heap product-behavior analytics, benchmarks, beta groups, and standardized reports into a repeatable research and validation approach
- Led multiple research workstreams and research roadshows across Audiences, Activation, Optimization, and Reporting, adapting insights for product, design, engineering, and senior leadership
- Scaled product design from 2 to 30 people across distributed teams in the United States and Poland for enterprise analytics used by 7,000+ users across 22 white-label brands
- Built the Digital Experience Audit workflow for channel scoring, benchmarks, recommendations, AI-powered visualization, and presentation-ready outputs

Freelance UX Designer

Omnicom · New York, NY · Dec 2019 – Jan 2020

- Supported oncology accounts as a freelance UX designer, combining healthcare UX, stakeholder input, and regulated review constraints to strengthen digital recommendations
- Translated brand goals and user needs into clearer flows, content structures, and research-informed product direction across strategy, creative, account, and delivery teams

Sr. UX Designer

Heartbeat Ideas · New York, NY · Aug 2018 – Nov 2019

- Led UX research and experience strategy for pharma and healthcare programs, translating stakeholder input, competitive audits, patient research, and HCP needs into digital product direction
- Created journey maps, site maps, user flows, wireframes, and prototypes for patient, healthcare-professional, and internal brand-team experiences
- Partnered with strategy, creative, account, product, and engineering teams to move research findings and UX recommendations into build-ready experiences

Account Management & Client Strategy

RosettaWishbone, FCB Health, Barker DZP, Cline Davis & Mann, Scout Marketing · Feb 2011 – Jul 2018

- Managed Fortune 500 pharma and healthcare programs with budgets from 2 million to more than 50 million dollars across CNS, neurology, psychiatry, cardiovascular, metabolic, and sleep-wakefulness brands
- Built an early foundation in expert stakeholder communication and regulated review across client, strategy, creative, UX, legal-medical review, and development teams

AWARDS

Indigo Awards 2023 — Design System & Data Visualization: 3× Gold, 2× Silver
