Dear Inizio Evoke hiring team,

I am applying for the Senior Account Director role with Inizio Evoke. I spent eight years in healthcare and pharmaceutical agency account management, progressing from Account Coordinator to Account Supervisor. I led Fortune 500 client relationships, managed brand budgets up to \$20M, and kept complex work moving across client, strategy, creative, production, media, and regulatory teams.

At FCB Health, I was one of two consumer account leads on the agency's largest pharmaceutical business. I managed the \$20M Namenda XR direct-to-consumer launch and owned the broadcast workstream for three national television commercials in one year, including market research, med-legal review, FDA preclearance, production, talent and location coordination, and network clearances. The spots drove a 45% increase in new-to-brand consumers within seven weeks.

Earlier at FCB Health, I owned weekly client status and financial reporting, OPDP and review-committee submissions, and annual strategic recommendations across a \$10M consumer business. At RosettaWishbone, I was the primary client contact across brand teams, national affiliates, and vendors, and I handled briefs, scopes of work, key opinion leader communication, client status, and financial reporting for an Africa and Middle East advisory board.

What I have done since has made me a stronger account leader. At Kinesso, I grew a distributed design team from 2 to 30 and led work for enterprise analytics used by 7,000+ people across 22 brands. Today, I build tools for pharmaceutical agencies that support claim review, brief intake, scoping, review routing, and MLR preparation. It changed how I guide teams and use data, with a much clearer view of where regulated workflows break down.

This role is a return to work I know well, at a level that benefits from what I learned afterward. I would welcome the chance to discuss how my agency account background and the work I have done since could support Inizio Evoke's clients and teams.

Sincerely,

Wally Mostafa
