SUMMARY

AI implementation and product strategy lead with 15 years across pharma, enterprise UX, client strategy, and regulated AI delivery. I turn ambiguous workflows into governed AI tools, demo-ready POCs, and build-ready product systems. My strength is bridging client translation, workflow design, model behavior, and adoption so teams can trust and use the product after the demo.

Regulated Healthcare & Client Delivery — 11 years across pharma/healthcare communications, FDA/HIPAA/MLR workflows, HCP/patient UX, client workshops, and stakeholder adoption

Enterprise UX & Design Systems — Team scaling (2 to 30), enterprise analytics, workflow UX, data visualization, component libraries, and accessibility (WCAG)
