SUMMARY

Product strategy and AI implementation leader with 15 years across enterprise data products, regulated workflows, customer strategy, and cross-functional delivery. Over the past six-plus years, I have led shared systems across a 20-plus-product suite, scaled enterprise analytics used by more than 7,000 people across 22 white-label brands, and owned zero-to-one AI products from discovery through working v1s, validation, and roadmap decisions. My strength is turning ambiguous, high-stakes problems into governed product experiences that make data quality, model behavior, risk signals, and human decisions easier to understand and act on.
